2. There was a fall in the 3rd week of December, which is explained as due to some marriages, and at the end of December which was due to something like a strike, when the work spot was shifted to an inconvenient place. I found the task was being properly exacted and that most of the workers were performing the full task. I think it may be considered to be proved that distress is existing in the area, which justifies the conversion of this work into a relief work, especially in the area around Yemmiganur. I recommend, therefore, that the Kurugodu-Yemmiganur road test work should be converted into a relief work and request the Board to

19. Veni Veerapuram.

Some of the villages come under one or two relief works. The villages are attached with reference to their proximity to the works.

Note file

Jamsine (Bellary) Test works.
Kurugodu - Yemmiganur Road
work - Conversion into relief
work.

№ 307/38

A.S. (Selt)

Please see the
letter from the Coll. of
Bellary at pp 1-2 C/f.

The figures of attendan
at the work are not stead
especially during the 3rd & 4th week of Decemb
and this is explained to
be due to some marriage
and strikes. Two strike
took place on the work
both reported to be due to
the increase in task. The
Coll. now states that
the strike happened becau
the work spot was
removed to an inconvenie
place.

While attention was
drawn to the strikes,
J.S. has remarked that
Conversion of the work into a relief
work may have to be

postponed the file is in
circulation to Mr. ____

The Coll. however
states that full task is
exacted and most of
the workers are perfor
full task. He is of opinio
that it can be decided
that distress exists in
the area especially in the
area around Yemmiga
he has therefore recom
that the work may be
converted into a relief
work.

Submitted for order
whether the progress on
the work may be watch
some more time before
approving the Coll's rep
in the light of the remark
of D.S. referred to above
